

Dr Sandip Banerjee

[MBBS \(Bom\) MD \(Respiratory Medicine\) MRCP \(Respiratory Medicine\)](#)

NHS Practices

Medway Maritime Hospital

Professional Profile

Dr Sandip Banerjee has been a Respiratory and Sleep Physician since 2014 at Medway Maritime Hospital and now is the Senior Physician Lead within the medical directorate as Clinical Director.

He completed his postgraduate training from the East of England Deanery including a year of specialist training at Cambridge University Hospital and a further 4 years at Papworth Hospital NHS Foundation Trust. He spent 3 years at Papworth Hospital investigating ventilatory failure in Motor Neurone Disease and gained a Doctorate Degree from the University of Hertfordshire.

Dr Banerjee has developed special interests in investigating the breathless patient and working on solutions for patients that have protracted coughs. He has expertise in smoking related lung problems, asthma, bronchiectasis, pulmonary fibrosis, pleural diseases, non-invasive ventilation and sleep disordered breathing.

His clinical approach draws on his strong academic background, with a focus on definitive diagnosis and delivering tailor-made care with a personal touch. He devotes time to explaining the diagnosis and possible treatment options.

He brings over 15 years of experience in respiratory medicine and works closely with other specialists at KIMS Hospital. His secretary is based on site at the hospital, providing a seamless service with regards enquiries, billing and appointments.
